Did You Know? Percy Spencer was working as a researcher for American Appliance Company (now Raytheon) when he noticed a radar set using electromagnetic waves melted the candy bar in his pocket. He had the idea to make a metal box using microwaves to heat food, but the company was the one to file the patent. He received a $2 bonus but never any royalties.

Concrete Work - We will be working on the removal and replacement of the sidewalks that may be considered a safety hazard throughout the Palo Verde property.

The concrete project will take place starting Wednesday, January 23rd and will continue until Thursday, January 31st. The work will be conducted between the hours of 8:00am to 5:00pm. However, loud sounds will be kept to a minimum until 9:00am. Part of the process for these projects will require the use of power equipment. There will be workers, noise, dust, and vehicles around the complex during the work period.

Thank you for your cooperation as we work to maintain and improve our community.

Wildlife in our Neighborhood
Wildlife creatures are just trying to meet their basic needs – food, water, and shelter in an ever-changing landscape. They are finding fewer food sources which brings them coming even closer to our complex in search of these needs. The key is learning when and how to live with wildlife and to make sure your behavior (and the neighborhood) is keeping wild things wild and wary of people.

It is understandable that we would want to help, but in doing so we may bring harm to the wildlife and jeopardize any future generations that could become dependent on us for their food and water.

Reduce pest access by taking your trash and/or other items to the dumpster instead of leaving them outside your front door or in any of the common areas. Your trash should go into the dumpster bins rather than along side of it, making it available for animals.

Remember – you live in a natural area that supports a variety of wildlife species. Enjoy them, but give them the space and respect they deserve by enjoying them from a distance!

If you feel there is a safety concern, contact the UCI Police at (949) 824-5223.
