Abandoned Shopping Carts - Many retail establishments provide shopping carts for the convenience of customers while shopping on the premises but are not to be taken off the property. It is illegal to take shopping carts without written consent from the business establishment.

Shopping carts left abandoned on public or private property are a public nuisance and an eyesore that hurts our community. They tend to attract litter and more carts.

More so, the cost of lost shopping carts are passed on to the consumer in terms of higher prices added on to basic commodities like food.

When you replace “why is this happening to me?” with “what is this trying to teach me?” everything shifts. – Unknown
